

To Whom it may concern

14 September 2021

Letter of Recommendation

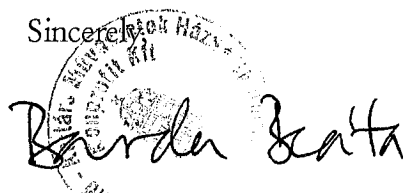

We have had the pleasure to work with **Máté Bredán** since 2015 in Trafó House of Contemporary Arts. He as a freelance has been lighting designer, technical manager, video designer and sound engineer. He has shown himself to be a true collaborator, with the success of a show as a whole as his preeminent concern.

Over the past 6 years he has worked on more than 10 performances: dance ones, theatre pieces, playback theatre performances, with different directors and teams. His creative lighting designs fit well with the dramaturgy of the performances.

Having a stable technical knowledge and being a hard-working, efficient and creative co-worker, Máté works well together with our local technical team, reliably coordinates the installation process even in case of more complex presentations. In addition to theatre pieces, he also participated in several concerts as a lighting technician and a sound engineer. He knows how to bring out the core values of a performance, whether theatre, dance and music, never calling attention to his effects in an arbitrary or unwarranted manner but always putting his design at the service of a larger vision, effectively handles possible crisis situations, makes good decisions and strives for frictionless cooperation between the artistic and the technical team.

Please feel free to contact me with any further questions.

Sincerely,

Beata Barda

executive director
